

1632 Gold OD Rod Mill Roll Grinder

An Ohio based producer of rod steel accepted delivery of a new Weldon model 1632 GOLD OD CNC grinder. In this application a carbide mill roll is supported by a heavy duty slip-fit arbor assembly. A full radius plated diamond grinding wheel is used to either plunge or CNC profile grind grooves in the circumference. The machine is also capable of OD topping and groove regrinds as necessary.

System features:

Fanuc 32i TD CNC control, **Firetrace** fire suppression system , **Heidenhain** precision glass scales "X" and 'Z" , **Weldon** slip-fit arbor assembly with face clamp

FANUC
Robotics

**Authorized
System
Integrator**

Weldon Solutions offers a full line of CNC OD, ID, and combination grinders. As a Fanuc Robotics integrator Weldon can also address your machine tending, material removal, material handling, and packaging/palletizing needs.

QUALITY, Over and over again
