AGN4 Angular Wheelhead Grinder

Pennsylvania Based Contract Manufacturer selects Weldon for precision radius grinding turnkey.

This model AGN4 incorporates a full Weldon turnkey of grinder, coolant filtration and chiller, mist collection, automatic lateral locator, automatic grinding wheel balancer and formed ALOX grinding wheel. An angle wheel approach is used to permit grinding the corner radius on a valve spool in a single plunge.

System features:
- Fanuc model 0i-TB CNC Controller
- Renishaw lateral locator, wheel head mounted
- Airflow MP4 mist collector
- SBS automatic wheel balancer
- MicroCentric pneumatic sliding jaw chuck

Weldon Solutions offers a full line of CNC OD, ID, and combination grinders. As a Fanuc Robotics integrator Weldon can also address your machine tending, material removal, material handling, and packaging/palletizing needs.
