

AGN4 Automated Match Grinder

Major Fuel Injection System Manufacturerchooses the Weldon model AGN4 with turnkey automation for Armature to Pin Match Grinding

System features:

Dual **Fanuc** 200i 6-axis robots, **Schunk** dual gripper assembly, **SBS** automatic wheel balancer, **Dittel** acoustic emissions sensor, **Etamic** pre-process and in-process sizing gages, **Fanuc** Oi TD CNC control, **Microcentric** precision air chuck

Weldon designed dual robotic automation turnkey with one robot tending the pre-gage station that measures the armature counter-bore depth. The second robot tends the grinder that grinds the pin end face to precisely match the output from the armature gage to a 5 micron total tolerance. Part presentation and exit via pallet tray designed to keep parts in matched pairs.

Weldon Solutions offers a full line of CNC OD, ID, and combination grinders. As a Fanuc Robotics integrator Weldon can also address your machine tending, material removal, material handling, and packaging/palletizing needs.

QUALITY, Over and over again
