

AGN4 Angular Wheelhead CNC Grinder

A new Weldon model **AGN4** angular wheelhead CNC grinder has been delivered to an aerospace contract facility in sunny Southern California, for grinding a variety of commercial and military aircraft components. Machine qualification was based on Weldon's ability to successfully grind difficult to cut alloys, such as **RENE-41**. Special thanks to our west coast representative, **Tornquist Machinery**, for their efforts to secure this business with a new customer, and for excellent follow-up after the sale.

System features: **Weldon** custom 3" wide wheel guard,, Weldon custom workhead center / driver / counterbalance assembly to engage 60 degree center in end of part and drive from flange, **Encyclon** model 652-100 cyclonic coolant filtration system, **Absolent** mist collector with HEPA filter, and **Fanuc** 0i TD CNC

FANUC
Robotics

**Authorized
System
Integrator**

Weldon Solutions offers a full line of CNC OD, ID, and combination grinders. As a Fanuc Robotics integrator Weldon can also address your machine tending, material removal, material handling, and packaging/palletizing needs.

QUALITY, Over and over again
