

AGN4 OD Rod Mill Roll Grinder

A Wisconsin based producer of rod steel has accepted delivery of a new Weldon model AGN4 OD CNC grinder. In this application, a carbide mill roll is supported by a heavy duty slip-fit arbor assembly. A full radius, plated, diamond grinding wheel is used to either plunge or CNC profile grind grooves in the circumference of the roll. The machine is also capable of OD topping & groove regrinds as necessary.

System Suppliers:

Fanuc 0i TD CNC control, **Firetrace** fire suppression system, **Heidenhain** precision glass scales on "X" & "Z" axes, & **Weldon** slip-fit arbor assembly with face clamp

Weldon Solutions offers a full line of CNC OD, ID, & combination grinders. As a Fanuc Robotics integrator, Weldon can also address your machine tending, material removal, material handling, & packaging/palletizing needs.

QUALITY, Over and Over Again.
