

# 1632 Gold OD Rod Mill Roll Grinder

An Ohio based producer of rod steel has accepted delivery of a new Weldon model 1632 GOLD OD CNC grinder. In this application, a carbide mill roll is supported by a heavy duty slip-fit arbor assembly. A full radius, plated, diamond

grinding wheel is used to either plunge or CNC profile grind grooves in the circumference of the roll. The machine is also capable of OD topping & groove regrinds as necessary.

## System Suppliers:

**Fanuc** 32i TD CNC control, **Firetrace** fire suppression system, **Heidenhain** precision glass scales on "X" & "Z" axes, **Airflow Systems** mist collector, & **Weldon** slip-fit arbor assembly with face clamp

**Weldon Solutions** offers a full line of CNC OD, ID, & combination grinders. As a Fanuc Robotics integrator Weldon can also address your machine tending, material removal, material handling, & packaging/palletizing needs.

## QUALITY, Over and Over Again.
