**Weldon Solutions Expanding HQ to Support Growing
Demand for Robotic Automation, Grinder Sales**

Construction scheduled to begin in February on 21,000-square-foot facility addition

YORK, PA (18 January 2022) – [Weldon Solutions](#), a leading manufacturer of CNC cylindrical grinders and robotic automation systems, is thrilled to announce the expansion of its York County headquarters in West Manchester Township.

As client demand for CNC grinders and custom solutions for industrial automation projects continues to rise, Weldon Solutions needs to expand its footprint to add capacity. Weldon will expand its production shop and warehouse by 18,000 square feet and its office by an extra 3,000 square feet. The addition will bring the facility to 61,000 square feet.

Construction is set to begin in February and wrap up by July 2022.

“At Weldon Solutions, we know how important it is to provide our customers with customized automation and CNC grinders that help them improve their bottom lines. With this knowledge, we are thrilled to break ground on this strategic expansion,” said Travis Gentzler, President at Weldon Solutions. “This 21,000-square-foot addition will allow us to increase production and assembly areas to better meet the needs of our customers for years to come.”

The facility expansion also is expected to create additional job opportunities.

[H&H General Excavating](#) is the contractor on the expansion project.
