### Weldon Solutions Wins Top Honors at FANUC Robotics Integrator Conference

**<sup>1</sup>YORK, PA (28 February 2022)** – [Weldon Solutions](#), a leading manufacturer of CNC cylindrical grinders and robotic automation systems, received three prestigious industry awards for company performance in 2021 at [FANUC America's](#) Robotics Integrator Conference.

Weldon Solutions was recognized for the following:

- Sales growth for an increase of 50 percent over the previous year
- Sales leadership for sales levels of 25, 50 and 100 units
- Intelligent Robotics and the percentage of robots that utilized iRVision or Force Sensing

These annual awards are bestowed on FANUC Robotics System Integrators, and Weldon Solutions received an award in each category.

The company's success can be seen in its growing facility. In January, Weldon Solutions announced it will [expand its production shop and warehouse](#) by 18,000 square feet and its office by an extra 3,000 square feet. The addition will bring the facility to 61,000 square feet later this year, which will help facilitate project expansion and fuel new team growth.

“It is always satisfying to have your hard work validated with industry awards, and to win all three – the triple crown – makes it even more exciting,” said President Travis Gentzler. “All thanks are due to the hard-working Weldon Solutions employees who design, build and service the incredible robotic automation solutions we implement for our clients.”
