

Phoenix Single Spindle ID Cam Grinder

Hydraulic pump manufacturer calls on Weldon for a second **Phoenix** ID cam grinder. This new machine features X and Z axis linear motors and a FANUC control with high-speed cycle cutting. The result was a system that could produce higher quality cams with up to a 50% improvement in productivity. Work holding was accomplished with a custom face clamping chuck.

System features:

Weldon heavy duty programmable workhead, **Heidenhain** precision glass scales on X, Z, and C axes, **Renishaw** probe, **GMN** ID grinding spindle, **Barnes** coolant filtration system, **Turmoil** chiller for grinding spindle, linear motors, and coolant, **Absolent** mist collector, **FANUC** 310i BT CNC control and linear motors

Weldon Solutions offers a full line of CNC OD, ID, and combination grinders. As a FANUC Robotics integrator, Weldon can also address your machine tending, material removal, material handling, and packaging/palletizing needs.

QUALITY, Over and Over Again.
