

1632 GOLD Rod Mill Roll Grinder

An Ohio based producer of rod steel has accepted delivery of a new Weldon model 1632 GOLD OD CNC grinder. In this application, a carbide mill roll is supported by a heavy duty slip-fit arbor assembly. A full radius,

plated, diamond grinding wheel is used to either plunge or CNC profile grind grooves in the circumference of the roll. The machine is also capable of OD topping and groove re-grinds as necessary.

System Suppliers:

FANUC 32i TD CNC control, **Firetrace** fire suppression system, **Heidenhain** precision glass scales on "X" and "Z" axes, **Airflow Systems** mist collector, **Weldon** slip-fit arbor assembly with face clamp

Weldon Solutions offers a full line of CNC OD, ID, and combination grinders. As a FANUC Robotics integrator, Weldon can also address your machine tending, material removal, material handling, and packaging/palletizing needs.

QUALITY, Over and Over Again.
