

# UGC Dual Spindle ID/OD Grinder

A major mid-west X-ray equipment manufacturer selects the Weldon model **UGC** in a dual spindle configuration, with a single ID and OD spindle, for grinding a wide variety of parts made from proprietary exotic materials.

Specialty equipment:  
**GMN** 60,000 rpm ID high frequency spindle, **Grosite** liquid cooled OD spindle, **PRAB** coolant filtration system, **Mistbuster** model 850 mist collector, **Renishaw** probe, **Heidenhain** precision "X" and "Z" axis scales, **Turmoil** coolant chiller, **Northfield** pneumatic chuck, **FANUC** 21i-TB CNC control

Weldon Solutions offers a full line of CNC OD, ID, and combination grinders. As a FANUC Robotics integrator, Weldon can also address your machine tending, material removal, material handling, and packaging/palletizing needs.

## QUALITY, Over and Over Again.
