

Phoenix Dual Spindle ID Grinder

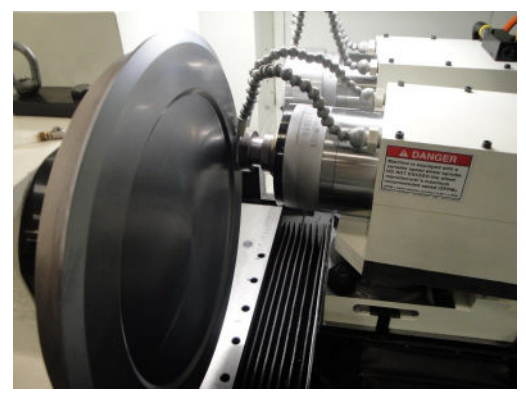

Major supplier to the semi-conductor industry selects the Weldon Phoenix, with 22" swing capacity, programmable C-axis featuring Heidenhain linear & rotary scales, & dual spindle capability, for a challenging grinding application. Large plates made of a proprietary silicon based material require OD, ID, face, and angle grinding to exacting specifications.

Heavy-duty workhead with custom vacuum chuck assembly

(2) GMN 150mm 24,000 RPM spindles with diamond grinding wheels

Spindle set at a 5 degree angle for face grinding operation

Weldon Solutions offers a full line of CNC OD, ID, and combination grinders. As a FANUC Robotics integrator, Weldon can also address your machine tending, material removal, material handling, and packaging/palletizing needs.

QUALITY, Over and Over Again.
